Thanks. Here are three specific questions we have:

1. What specifically will be required of Clarksburg from the administrative order? Will replacement recover just service/distribution lines, or will action in individual homes be required?
2. Will EPA be able to send in a response team promptly to assist with testing and other required action?
3. How will the lead service line replacement be funded? Is there an opportunity for reimbursement?

Also:

- Who from EPA will be joining, in addition to yourself?
- Someone from Clarksburg may join

Thanks Jake. If you folks have very specific questions you want to ask, please let me know what they are and I can make sure staff are prepared to answer them comprehensively.
